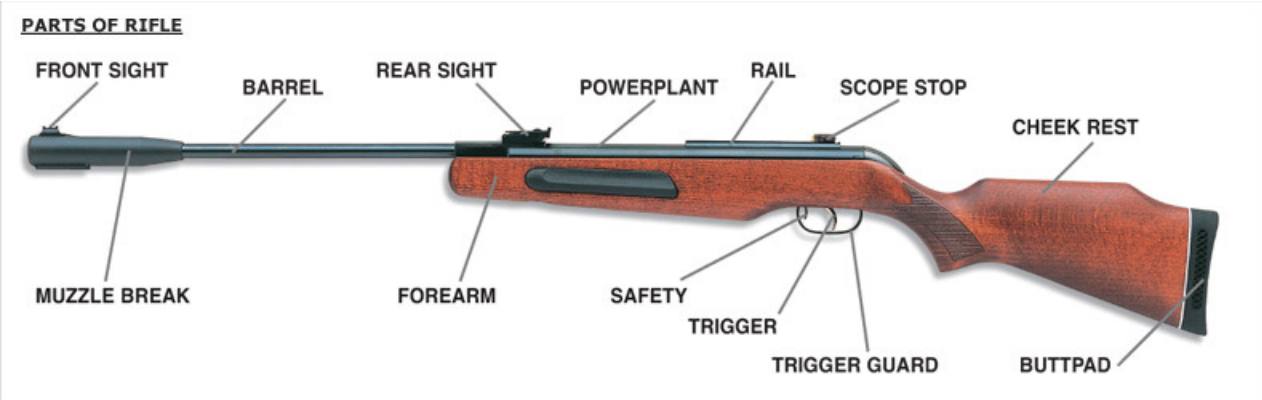
AIR RIFLE SHOOTING

SAFETY TIPS & INSTRUCTIONS



1. Parts of a rifle.
2. Rifle is not a toy but a dangerous weapon if not used safely.
3. Air gun must always point downrange – i.e. at target area.
4. NEVER point your gun at anyone whether it is loaded or unloaded.
5. Shooters to concentrate - no talking with those waiting to shoot, and vice versa.
6. Shooting area – no-one to enter the target area past table, without permission.
7. Demonstrate how to load rifle, how to hold rifle, how to aim.
8. Always load the gun pointing downrange.
9. Keep your finger off the trigger until you are actually aiming at target.
10. Half break rifle when finished shooting. Lay on table and take a step back.
11. Never shoot a rifle without a pellet.
12. Investigate leading eye if needed. Use eye patch if required.
